## **Change of use of Queens Head**

The clerk had forwarded the Rt Hon Greg Clarke MP's letter to SNC.

Mr Ellis had written to express concern that his letter submitted to councillors for the meeting on 8<sup>th</sup> May had not been read at that meeting. As the letter had been seen by everybody at that meeting other than one member of the public, the clerk had sent a copy to that member of the public so that the information was available to all.

Mr Ellis had responded and his email was circulated to councillors prior to the meeting. Mr Moulton read the letter in full to the meeting and there were no questions or criticisms from councillors, however Mr Hook pointed out several areas which he felt were challengeable. It was generally agreed that the matter had been considered in detail over many months and the matter would now be left with SNC.

Mr Hook reported that he had received an email from Tim Horspole SNC Planning Policy Manager addressed to Helen Mellors the case officer and the clerk read this to the meeting. Mr Hook proposed, Mr Turner seconded and it was agreed with one abstention that the clerk respond to Helon Mellors indicating that Hempnall Parish Council strongly requests that SNC defers a decision on the change of use until after the secondary legislation of the Localism Act is in place. This will enable the procedures relating to the listing of community assets and the community right to bid to be clarified.

## **Apple International Inc site**

SNC had reverted in relation to the walls that had been erected near the entrance for which it was understood planning permission had not been obtained. They stated that *"Following a visit to the site I can now advise you that planning permission is required for the development in question. I have written to the owner inviting either a planning application for their retention or that they are removed."*

Mr Hook asked the clerk to request that HPC receive a copy of the application.

The clerk and Mr Hook had submitted comments based on the parish council's response to the original consultation on the Joint Core Strategy.

## **Mineral waste**

Mr Hook had confirmed the comments made by the parish council in response to the original consultation.

## **Jubilee Subcommittee report / donation**

Mr Moulton reported that the sub-committee had returned the cheque of £250 loaned to the committee but the committee had asked if the parish council would like to make a donation. Mr Moulton read the letter from the committee. Councillors agreed that the weekend had been a fabulous event and that all credit should go to the organisers. The event raised £1292 to be divided between Hempnall School Library fund and Nelson's Journey charity which supports parents that have lost young children and visa-versa.

### Wind Turbines

The clerk had sought clarification of Mr Barker's comments and awaited a response. The request had been supported by Richard Bacon MP and District Councillor Windridge.

Mr Hook reported that Mr Vine has started his bat survey.

It was noted that High Court judge, Mrs Justice Lang, stated in her judgement re proposed the Hemsby wind turbine planning application from Sea & Land Power and Energy Ltd, that "As a matter of law it is not correct to assert that the national policy promoting the use of renewable resources negates local landscape policies or must be given 'primacy' over them."

SHOWT had requested a 15 minute presentation slot at a parish council meeting following receipt of any planning application re wind turbines. Mr Hook read the letter to the meeting.

Mr Moulton left the meeting.

Mr Delf proposed, Mr Turner seconded and it was unanimously agreed that both SHOWT and TCI would be invited to make a presentation at a public meeting arranged by the parish council should an application be received.
